

Angry Mojo Games

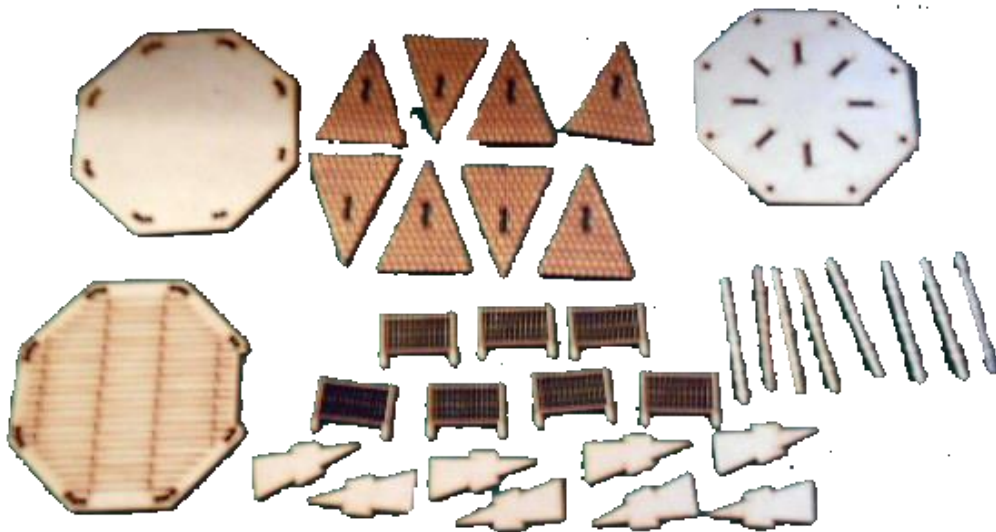

Assembly Instructions for Gazebo

Required Materials

- **Gazebo Kit from Angry Mojo Games**
- **Glue, we recommend wood glue**
- **Rubbing alcohol**
- **Rag or paper towel**

The impressive looking graveyard fence and cemetery gates kit is surprisingly easy to put together.

1. Thoroughly clean all the pieces, especially the edges, with rubbing alcohol and a rag. This is important, during the manufacturing process the laser will burn and melt the resin holding the fiberboard together and this leaves quite a bit of soot and residue. If that soot is present, glue will have a difficult time holding the piece together.
2. Locate these pieces

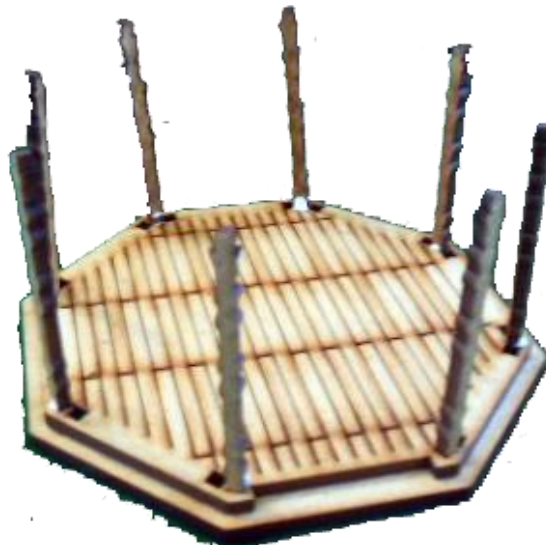

ANGRY MOJO Games

3. Glue the solid octagon to the piece with the wood plank detailing. Make sure the holes line up, one side of the octagon only has two square holes on each corner.

4. Glue the posts in place, make sure the bottom goes through both pieces of the floor. The flayed out sides go upwards to support the roof. Each post goes in the center of the three holes.

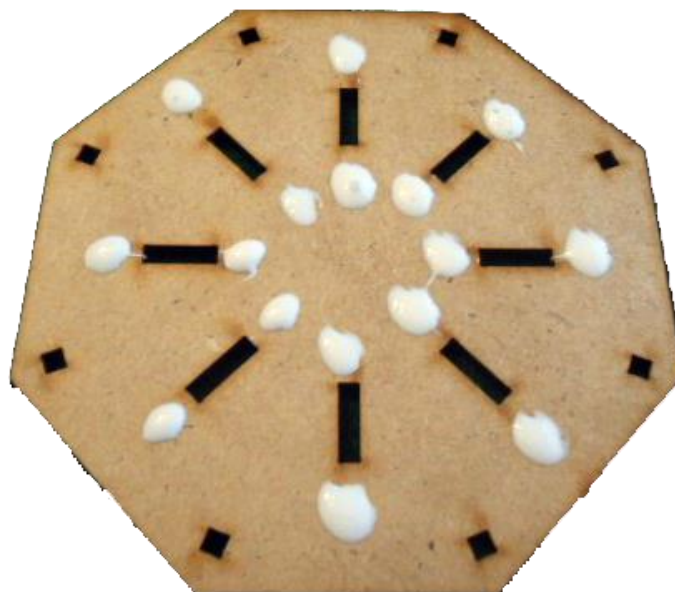

Angry Mojo Games

5. Railings go between the posts.

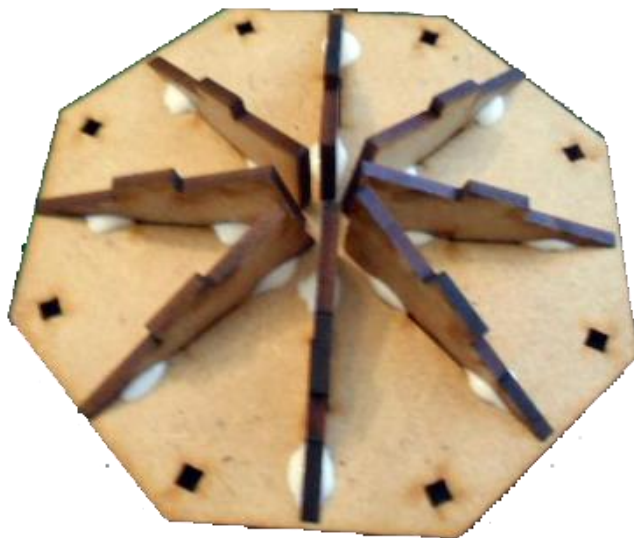

6. Glue the roof as shown. This will all be internal, feel free to use a bit more than normal.

Angry Mojo Games

7. Glue the triangular support pieces to make this octopus looking thing.

8. Glue the shingled sections on top.

Angry Mojo Games

9. Carefully place the roof on top of the posts, with the posts entering the holes. That's a fine looking Gazebo you have there.
