Assembly Instructions for Large Creepy Tree

Required Materials

- **Large Creepy Tree Kit from Angry Mojo Games**
- **Glue, we recommend wood glue**
- **Rubbing alcohol**
- **Rag or paper towel**

The creepy tree is easy to assemble, and goes together quickly.

1. Thoroughly clean all the pieces, especially the edges, with rubbing alcohol and a rag. This is important, during the manufacturing process the laser will burn and melt the resin holding the fiberboard together and this leaves quite a bit of soot and residue. If that soot is present, glue will have a difficult time holding the piece together.
2. Locate these pieces.

3. Glue those flower looking things into the slots on one of the tree segments.

4. Repeat seven times. Nice and creepy.
