Assembly Instructions for Small Creepy Tree

Required Materials

- **Small Creepy Tree Kit from Angry Mojo Games**
- **Glue, we recommend wood glue**
- **Rubbing alcohol**
- **Rag or paper towel**

The small creepy tree is very easy to assemble.

1. Thoroughly clean all the pieces, especially the edges, with rubbing alcohol and a rag. This is important, during the manufacturing process the laser will burn and melt the resin holding the fiberboard together and this leaves quite a bit of soot and residue. If that soot is present, glue will have a difficult time holding the piece together.
2. Locate these pieces.

3. Run a line of glue above and below the slots like this.

4. Slide them together, and you're ready to go.
